Mid-term Review of the Department of Rural Development & Land Reform

Pictorial Overview

2012
As one of the world’s youngest democracies South Africa has benefited greatly from the experiences of the democratic world. Despite this, the circumstances surrounding the country’s shameful apartheid heritage have required original responses. This is why, following 15 years of democratic government the ruling party decided to add another layer of government. The new Department of Rural Development and Land Reform was effectively an admission that the development of the 20 million people who resided in the country’s rural areas was not progressing as hoped, and that the long dispute regarding the equitable distribution of the country’s land remained unresolved.

The new department has a difficult brief: to bring, not only hope, but relief to those who are suffering simply because they live in rural regions.

In many parts of the world, particularly the democratic world, rural does not necessarily mean poor. In fact, in some places rural lifestyles are highly sought after. But in a South Africa scarred by centuries of prejudice and shackled by 5 decades of deliberate neglect, rural means poor.

The new department has lost no time in implementing its mandate. The photographs on these pages depict some of the situations that it found, what it did about it, and what it left behind. This, during the first 30 months of its existence.

This is a record, not of what has been done, but what remains to be done.

The new department does not work alone. It has the full backing of a supportive government. It has the support of public opinion. Most importantly, its greatest fans are those who back the departmental team, the rural South African poor.
Minister Gugile Nkwinti with a strategic partner and emerging farmer.

Deputy Minister Lechesa Tsenoli handing over a title deed.
The map depicts 23 prioritised districts, overlayed with CRDP wards in the country.
Summary of achievements

The Department of Rural Development and Land Reform (DRDLR) has been mandated to create vibrant, viable and sustainable rural communities across South Africa through its Comprehensive Rural Development Programme (CRDP). Through the CRDP the department wants to improve the livelihoods of rural communities ultimately creating vibrant, equitable and sustainable rural communities.

This includes: redistributing 30% of the country’s agricultural land; improving food security of the rural poor; creating business opportunities, de-congesting and rehabilitating over-crowded former homeland areas; and expanding opportunities for women, youth, people with disabilities and older persons who stay in rural areas.

The ultimate vision of creating vibrant, equitable and sustainable rural communities will be achieved through a three-pronged strategy based on:

- a coordinated and integrated broad-based agrarian transformation;
- strategically increasing rural development; and
- An improved land reform programme.

Job Creation
- 11 400 jobs created linked to skills development
- 3 936 jobs in Infrastructure Development
- TOTAL 15 336 (inclusive of NARYSEC)

Land Reform
- Hectares restored: 882 2 38
- Farms recapitalised: 640
- Beneficiaries: 10 447

Food Security
- 3 258 food gardens established
- 63 977 households profiled

Skills Development
- 3 819 people trained (master gardeners, household food gardening, financial management, training in community based planning, participatory rural appraisal and household profiling, arts and craft and indigenous seed production training.)

Cooperatives & Councils of Stakeholders Established
- 464 established

Idutywa vegetable nursery
CRDP sites
Summary of achievements

**Rural Development**
- 12,839 Households profiled
- Projects
  - 258 vegetable gardens established (100 in 2011/12)
  - 600 ha maize planted
  - 2 Agri-Parks (Idutywa and Alice)
  - 15 ha vegetable gardens established and selling to local retail shops

**Land Reform**
- Hectares restored: 132,849
- Farms recapitalised: 14
- Beneficiaries: 1,167

**Infrastructure**
- Meeting Basic Needs
  - 350 water rollers were supplied in the Eastern Cape
- Economic Development
  - In Masibambane - 263m fencing and refurbishment
  - In Mhlontlo fencing - 229 km
Food security is critical in rural livelihoods. Household members have been equipped with farming skills, including agro processing.
Food security initiative includes household gardens and arts and crafts enterprises.
A total of 851 jobs were created mainly from the following infrastructure projects: fencing, road infrastructure development, working for water programme, construction of VIP toilets, electrification in Ngcakolo and through household profiling.
The building of the Nelson Mandela Legacy Bridge over the river Mbhashe in the Eastern Cape. The department partnered with other departments in the execution of this R123 million infrastructure project. This project will benefit the community around the Ludondolo and the Mvezo village.
The Masibambane Care Centre has been renovated to ensure access to improved living conditions for children with disabilities. In addition, food gardens have been established to ensure access to nutritious food and creation of jobs for the local community.
In the Eastern Cape 22 farms are recapitalised.
Free State

Diyatalawa sporting facilities
CRDP sites
Summary of achievements

Rural Development
Profiling and Social Facilitation
- 1 873 Households profiled

Projects: Diyatalawa
- 418 hectares (ha) wheat planted yielding 314 tons sold to Premier Foods (36 households earned R12 000 each)
- 50 ha dry beans planted out of own funds and harvested
- 200 ha soya beans planted
- 25 household gardens are being planted
- 3 Vegetable Enterprises established emanating from the master gardener training programme. (Makholokoeng, Qwa-Qwa, and Paul Roux)
- 1 Beef Enterprise established in Diyatalawa.
- 1 Livestock Feed (Lucerne) 100 hectares

Infrastructure
- Diyatalawa and Makholokoeng
  - Diyatalawa was one of the pilot CRDP sites and has since been developed into one of the first sustainable rural settlements built on the Green Principles.
  - In collaboration with Provincial Government and sector partners the following have been developed:
- Basic Services
  - Solar Street lighting (Diyatalawa), 50 households provided with solar lighting and geysers, bulk water and reticulation infrastructure, 150 household gardens (50 square meters - Makholokoeng 100; Diyatalawa 50); Public Amenities
  - Community hall constructed, sporting facilities
- Education
  - 2 Crèches built (Diyatalawa, Makholokoeng), school
- Health
  - 2 Clinics built
- Economic development
  - 10 vegetable tunnels were erected and are producing food for a group of women of Makholokoeng;
  - four 5kl tanks storing water from a borehole addresses irrigation water; three hydroponic tunnels erected for intensive tomato production in Makholokoeng;
  - 10ha potato field fenced in Makholokoeng for commercial production;
- 3.2km access road upgraded; Dairy under construction.

- ICT
  - 2 Village viewing areas; 2 xICT centres (Provincial government)

- Jacobsdal
  - Contractors on site for sports complex
  - Village viewing area
  - New crèche

- Jobs created - 176 jobs

**Land Reform**

- Hectares restored: 71,428
- Farms recapitalised: 115
- Beneficiaries: 427
Vegetable tunnels were erected in Makholokoeng to assist women in food production and farming enterprises.
Diyatalawa is being developed as a sustainable green village. Interventions include solar lighting, solar geysers and turbines. Even the school that is being built, has been powered by solar energy. Several Infrastructure projects were undertaken to ensure that the community becomes sustainable.
As part of job creation the community was part and parcel of the construction of this multi-purpose centre.
The Recapitalisation and Development Programme has donated cattle to farmers so that they increase agricultural production, guarantee food security and create employment opportunities.
Grain SA collaborated to assist various family farmers in the Free State.
The Red Meat Value Chain project is a forward and backward "Integration Strategy" that will integrate a number of redundant, land reform related projects and a number of still to be established agricultural related and food distribution enterprises into the whole value chain.
The chain involves, making these land reform farms farmable, link them to a feedlot, the abattoir, processing and finally into the meat distribution cycle with the key outcome being skilled and capacitated farmers with thriving enterprises.
Communities in Makholokoeng enjoying the World Cup.
CRDP sites
Summary of achievements

Rural Development
- Profiling and Social Facilitation
  - 17 956 Households profiled
- Projects
  - In Sokhulumi 100 hectares of maize and 115 hectares of dry beans planted to be harvested in May 2012.
  - An enterprise established with off take agreement with commercial millers.
  - 2, 5 hectare vegetable gardens established.
  - Areitereleng project for the blind, machinery, fencing material, knitting material, linen, other fabric, etc, benefiting 28 households.
  - Winterveldt Citrus Project, trees bought to expand orchard.
  - Batjhonjalo Poultry assisted with production improvement of broilers.

Infrastructure
- Economic projects
  - Fencing of community garden, cemetery, school gardens, agricultural land
- Social projects
  - Paving at the community hall
  - 171 Household fencing
- ICT
  - 2 digital doorways
  - 2 Village Viewing Areas
  - I-school programme being implemented (1700 learners)
- Education
  - 3 schools renovated in (progress).
  - Benefitting 11 500 learners.
- Jobs created
  - 187 jobs

Land Reform
- Hectares restored: 7 683
- Farms recapitalised: 117
- Beneficiaries: 231
Food security and enterprise initiatives have been implemented in Gauteng. 2.5 Hectares of vegetable gardens have been developed in Devon and Itereleng project for the blind in Ga Rankuwa.
The department has installed solar geysers and Bio-digestion technologies as appropriate and innovative environmental user-friendly technologies in CRDP pilot sites. The installation of these geysers in CRDP site has created green jobs for people in rural areas.
Devon electrification and road project

The electrification and roads upgrade in Sokhulume.
2011 Toyota Farmer of the Year winner, Gift Mafuleka was assisted by the department with farming implements. Today, he is a commercial farmer who supplies peas to McCain Foods and maize to the country’s biggest grain buyer AFGRI.

KwaZulu-Natal

MID-TERM REVIEW OF THE DEPARTMENT OF RURAL DEVELOPMENT & LAND REFORM
CRDP sites

KwaZulu-Natal
Summary of achievements

**Rural Development**

- **Profiling and Social Facilitation**
  - 40,654 Households profiled

- **Projects**
  - Malenge irrigation scheme with 199 beneficiaries working on 280 hectares of land producing vegetables and grain crops.
  - 50 Hectares of dry beans have been planted.
  - Nhlahleni – 200 hectares of maize and sunflower production with 120 beneficiaries.
  - AsisukumeMsinga Coop (Registered) at Msinga Top has a membership of 435; women being 270, men 165 and 18 youth. They have planted and harvested 24 tons of maize, 84 bags (50kgs) of sugar beans and 3.2 tons of yellow maize. Operating in about 400ha field.
  - Ndlalifa Coop (Registered) at Naxamalala has a membership of 625; women being 503, males 102, youth 19 and disability 1. They have planted and harvested vegetables like spinach, cabbage, garlic, etc. Operating in a 235ha field.
  - Isibusiso Garment-Making Cooperative is registered and located in Uthungulu District CRDP site of Umlalazi Local Municipality (Mbongolwane Village, Ward 3). This project is being assisted with additional industrial machines and material.
  - 400 hectare crop fields and 100 household gardens established.
  - Maize and sunflower planted in wards 10, 11, 12, 13 and 15.
  - The project has also contributed to job creation as 22 members of the community were employed.

**Infrastructural Needs**

**Vryheid**

- Meeting basic human needs
  - Bulk water and sanitation infrastructure provided for 903 households; Human Settlements in the province to finalize construction of houses, 500 VIP units provided in Vryheid

- Education
  - Crèche completed in Sekhame; I ECD, 3 schools renovated

- ICT
  - 2 Village viewing areas Msinga
- Meeting basic human needs
  - Electrification of 800hh
  - Bulk water infrastructure
    (Ndaya Water scheme)
    benefiting 720 hh
- Economic Development
  - Irrigation schemes:
    Boschoek, Nxamalala
    irrigation scheme, 250
    hectares, construction of
    pump house, additional
    hectares being developed
- ICT
  - 14 Village viewing areas
    Sustainable Rural
    Settlements
- Nkandla
  - Development of the Nkandla
    Smart Growth Centre
  - 30 Hectares de-bushed
  - 100km fencing completed
- Jobs created
  - 550 jobs

**Technology and research**

- Current projects
  - Demonstration of
    Conservation Agricultural
    Technologies (CATs) in
    Msinga. 29 communities
    implementing CATs. 1 112
    households are benefitting.
    164 jobs (103 women; 32
    youth) created.
- Completed Projects
  - IKS awareness campaign
    held in Msinga. 18
    communities in Wards 6, 7, 8
    and 9 are implementing IKS.
    36 temporary jobs were
    created.

**Land Reform**

- Hectares restored: 72 936
- Farms recapitalised: 110
- Beneficiaries: 4 817
The department is working with rural areas in Msinga to preserve knowledge for future generations.
KwaZulu-Natal

Msinga electrification project

Electrification and bulk water projects in Msinga have improved access to basic services and created employment opportunities for the community.

Ndaya bulk water supply
The provision of sanitation and education facilities has contributed to improved livelihoods for children and the community at large in Vryheid.
Water and irrigation infrastructure are being supplied to support the KwaNxamalala project. This is one of the projects where land along the river beds will be made productive and linked to agro logistics.
Young people enjoying the World Cup.
Limpopo

Muyexe brick making project
CRDP sites
Summary of achievements

Rural Development
- Profiling and Social Facilitation
  - 6,787 Households profiled
  - Organizational Workshops were conducted in Muyexe to organise the community for participation in decision making, enterprise development and built social cohesion.
- Projects
  - 400 ha summer crops in Mokwete in Sekukhuni District
  - Poultry project in Muyexe
  - 15 ha vegetable garden in Muyexe
  - 100 household gardens in Gonono and Thomo (Mopani District)
  - 4 Institutional gardens (schools) in Makhado
  - Muyexe, Makhado, Makhuduthamaga and Fetagomo supported with agricultural implements - 7 tractors, ploughs, planters and trailers.
- Hospitality Enterprise (Women’s Cooperative – 10 members)
- 2 Vegetable Enterprises established emanating from the master gardeners training programme.

Infrastructure
- Meeting Basic Needs:
  - 330 houses, boreholes equipped, water purification plant (DBSA), internal water reticulation (Municipality), 275 sanitation units
- Health
  - Clinic refurbished and operational
- Other social infrastructure
  - Post office, Clinic, satellite police station, drop-in centre, sports stadium built (Provincial Government)
- Education
  - Renovations of school, additional classrooms, ablution facilities at the school, a new Early Childhood development centre with solar lighting.
- ICT Services
  - ICT centre offering the community access to ICT services, 2 Village viewing areas that enables the community to be a part of major sporting events, State of the Nation Address, etc, I-school Africa Rural Development programme at the secondary and primary school offering learners opportunity to interact and be skilled in the use of new technology.
- Economic Development
  - Completion of a 17km gabion fence between the Kruger Park and Muyexe, 17km of fencing for arable land in the area, 17km of fencing of grazing land, 300 household gardens fenced to support household food production. Packhouse and pump-house completed to support agricultural development.
- Additional areas in Limpopo
  - Gonono, Dingamanzi; Solar
powered street lights to be provided in Muyexe, Gon’on’o and Dingamanzi
- IKS awareness campaigns held at Giyani Local Municipality (Thomo, Muyexe, Dingamanzi and Gonono). 28 temporary jobs were created.

- Masia
  - As part of creating sustainable rural settlements, contractors have been appointed for the construction of a amphitheatre, sporting facility, multi-purpose centre, ICT centre, library and administration facilities for the Masia Community.

- Sekhukune
  - Land has been released for development; Sustainable

Rural Settlement planning to continue with district municipality with a focus on Jane Furse

- Jobs created - 319 jobs

**Land Reform**

- Hectares restored: 40 512
- Farms recapitalised: 70
- Beneficiaries: 481
The community members of Muyexe were involved in the construction of their own village. Macena women were assisted by NARYSEC at their communal garden. These women are able to feed themselves and have a contract to supply Spar.
In an effort to provide improved services to the Muyexe community, various interventions have been made including the provision of JoJo tanks for clean water. Multi purpose facilities, fencing, including the gabion fence between the Kruger National Park and Muyexe which protects the community stray animals, were erected. An ICT centre was also constructed.
The refurbishment of the Muyexe clinic and the construction of an early childhood development centre makes it possible for the community to access quality health care and child development services.
The Turvey Farms (consisting of 16 farms) is situated in the Mookgopong Local Municipality in the Waterberg District.
Muyexe Community watching the Soccer World Cup.
Mpumalanga

CRDP sites
Summary of achievements

Rural Development
- Profiling and Social Facilitation
  - 22,081 Households profiled
- Projects
  - Mhlongamvula CPA has planted 400ha of summer crops (200 ha soya beans and 200 ha maize). The crops are being harvested currently resulting in a total expected income of R3,04 million and 18 people are employed.
  - 10 tractors and implements provided
  - 2 Vegetable Enterprises established emanating from the master gardeners training programme

Infrastructure
Mkhondo
- Meeting Basic Human needs
  - 100 households assisted with solar units

Education
- School renovated
- School and boarding facilities built in Mkhondo (Provincial Government)

ICT
- 5 Village Viewing areas

Economic Development
- 150 km fencing (Provincial Government)

Jobs Created
- 257 jobs

Land Reform
- Hectares restored: 100,933
- Farms recapitalised: 59
- Beneficiaries: 1,209
Even as we work to provide improved housing to farm occupiers and labour tenants, detachable solar units are provided on the current structures which would be moved to their permanent homes.
Various restitution and land reform projects are being assisted to increase production. Strategic support and farming expertise has been provided to the Mhlongamvula CPA to ensure sustainability.
Minister Nkwinti joins the Mkhondo community in Bafana’s victory over France.
CRDP sites
Summary of achievements

Rural Development
- Profiling and Social Facilitation
  - 17 218 Households profiled
  - Organizational Workshops were conducted in Riemvasmaak to organise the community for participation in decision making, enterprise development and built social cohesion.
- Projects
  - 100 household gardens established
  - Established a 1 hectare community garden in Vredesvallei
  - 22 livestock farmers provided with grazing camps
- Social Infrastructure (sewer network, 22 houses, solar projects, upgrading of 2 community halls (Sending and Vredesvallei))

Infrastructure
- Meeting basic needs
  - 128 Houses built
  - 60 VIP toilets
  - 37 km water pipeline completed
  - Solar lighting provided to 100 households
- ICT
  - 2 ICT centre established; 2 Village Viewing areas
- Education
  - 2 ECD centres (DRDLR and NDA)
- Health
  - 2 clinics (Provincial Government)
- Other social infrastructure
  - 2 sports fields; 2 community halls; solar lighting provided at sports field
- Economic Development
  - 60 km road upgraded (District Municipality)
  - Cattle handling facilities and fencing (Provincial Department of Agriculture)
- Other areas
  - Geismap: 162km fencing
  - Perimonkie: 50km fencing
  - Philipstown: 38 km household fencing underway
- Jobs created - 394 jobs

Land Reform
- Hectares restored: 350 869
- Farms recapitalised: 39
- Beneficiaries: 176
The upgrading of the 60 km road in the province has paved the way for social and economic activities. This has made it easy for the transportation of goods in and out of the diamond rich province. The road upgrade has also made it easier for the delivery of building material for RDP houses.
Rural schools have been equipped with ICT facilities to be in touch with the world via technology. Learners in rural schools can now, through the department’s facilitation, research information needed in their curriculum.
Animal and veld management implemented in Riemvasmaak through the provision of cattle handling facilities and fencing. In addition, children and young people in the area have educational and sporting facilities have been upgraded.
North West

Moses Kotane Infrastructure development
CRDP sites
Summary of achievements

Rural Development
- Profiling and Social Facilitation
  - 24 437 Households profiled
- Project
  - 40 pregnant Bonsmara heifers were procured to improve the quality of livestock for an enterprise development project in NgakaModiri, for the benefit of a community of 800 people
  - 12 Bonsmara bulls were procured for distribution to those projects with heifers.
  - 40 pregnant Bonsmara heifers were procured to improve the quality of livestock for two enterprise development projects in Dr RS Mompati, for the benefit of a CPA consisting of 500 people, and a Trust consisting of 60 people.
  - 200 goats and 7 rams were procured for nine cooperatives in Ngaka Modiri Molema.

Infrastructure
Disake, Matlemetlong, Mokgalwaneng
- Basic Needs
  - 300 houses
  - 144 VIP units
  - 1,5 mega liter water reservoir (impacting 2500 hh)
  - 30 High mast lights
- Health
  - Clinic fully operation 24 hrs a day (Department of Health)
- ICT
  - 6 Village Viewing areas
  - I-schools programme being implemented in 3 schools
- Technology and Research:
  - IKS awareness campaigns held in Moses Kotane Local Municipality (Disake, Mokgalwaneng, Matlemetlong and Matsitsinyane). 22 temporary jobs were created.

Economic Development
- 6 livestock handling facilities
- 160 km fencing for grazing;

Jobs created
- 446 jobs

Land Reform
- Hectares restored: 73 977
- Farms recapitalised: 104
- Beneficiaries: 246
Basic services in the Moses Kotane area have been provided that is a 1,5ml water reservoir has been constructed, provided water access to 2 000 households. The provincial government has facilitated the development of an enterprise development hub to promote SMMEs. All infrastructure development have contributed to job creation in the province.
Enabling rural women to engage in various enterprises like sewing. The School Africa Programme provide access to Ipod, laptops and digital cameras. It is linked to the two year training programme which includes providing learners an opportunity to delve into journalism within their own community.
Recapitalisation project in the communal land of the Bana Ba Kgwale communal area.
CRDP sites
Summary of achievements

Rural Development

- Profiling and Social Facilitation
  - 30 368 Households profiled
  - Organizational Workshops conducted in Dysselsdorp to organize the Community for participation in decision making, enterprise development and built social cohesion.

- Projects
  - Clinic and school food gardens
  - 260 household food gardens provided
  - 1 Community garden started by the Youth called Zenzele Agriculture Group. Harvested tomatoes and Green Peppers and they are selling to a local market.
  - 2 Community gardens established selling to the immediate communities.
  - 2 Vegetable Enterprises established.

Infrastructure

Dysselsdorp

- Meeting basic Human Needs
  - 10 Sandbag houses (not yet fully completed)
  - 90 Rainwater harvesting tanks
  - Agricultural infrastructure at clinic garden

- Education
  - Poplap Crèche
  - Renovated 5 schools

- Other Social infrastructure
  - Old age home renovated
  - Solar geysers provided to old age home.

- Other areas
  - Matzikama: road constructed (6km);
  - Witzenberg
    - Paving of walkway and development of recreational area
    - Phase two underway including recreation facilities and swimming pool

- Jobs created
  - 470 jobs

Land Reform

- Hectares restored: 31 051
- Farms recapitalised: 12
- Beneficiaries: 1 693
Western Cape

The Witzenberg pathway in Ceres

The Witzenberg pathway has created jobs for young people in an area where there has been high unemployment. This area was previously a security and health risk.
In Dysselsdorp, various schools have been constructed or renovated, including the Poplap Creche for children living with Alcohol Foetal Syndrome. The improvements made to the educational institution have contributed to a positive pass rate.
In Dysselsdorp the department piloted new building technology that was deployed to assist in the aftermath of floods. Additional work was done at the Old Age Home and home gardens.
Jojo tanks provided by the department alleviate the scarcity of water. While the solar geysers installed in rural households ensure that there is a supply of warm water to the community, this saves the poverty stricken community money as they need not buy electricity for the geysers.
One of the farms in the Western Cape currently under recapitalisation is the Rietkloof Table Grape Project.
Young children singing the National Anthem during the opening of the World Cup.
The vision of restitution is to have persons or communities dispossessed of property after June 1913, as a result of past racial discriminatory laws and practices, restored to such property or receive just and equitable redress. A total of R1,593,334 was paid to 56,804 households as financial compensation between May 2009 and March 2012.
A total of 7,063 farms were bought since inception which translates to 2,870,473ha. Since May 2009 to 31 March 2012, 634 farms were required, translating to 331,193ha.
To respond to the challenges of poverty, skills development and crime, the department has implemented the National Rural Youth Service Programme, which provides character building programmes, soft and hard skills training and dispatch the youth to rural areas to undertake various rural infrastructure development projects. Seen in the pictures are NARYSEC participants at the first prestigious graduation ceremony held at the De Brug Military Camp, outside Bloemfontein, in Free State.
NARYSEC being taken through a skills development programme, eg discipline, construction and farming.
The department has assisted various municipalities to respond to disaster situations and has also been training rural communities.
The Geospatial and Cadastral Services Programme is responsible for providing geospatial, cadastral surveys, spatial planning information and technical services in support of sustainable land development. The department has trained over 120 pupil survey officers who graduated to become survey officers after a 24 month in-house training. Over 30% of the survey officers are currently undergoing training at various tertiary institutions studying geomatics/surveying. The department’s scarce skills bursary scheme has over 210 students sponsored to study geomatics/surveying in diploma, degree and master’s programme.
The country relies upon the Deeds Registration Office for a proper management of the land administration system in order to have accurate records of property rights. Furthermore, the office impacts positively on the economy of South Africa by ensuring that the title deeds and mortgage bonds that are lodged in the respective offices get registered within the recorded timeline with the aim of meeting the service delivery objective of the public service.
This Green Paper represents the aspirations of the victims of land dispossession and the interests of the land owners and all South Africans. One of the notable highlights on the legislative front was the gazetting of the Green Paper on Land Reform in September, 2011. After gazetting, the department embarked on consultation workshops across the country where it invited various land reform stakeholders, beneficiaries and people interested in the land reform to make inputs. The paper represents the aspirations of the victims of land dispossession and the interests of the land owners and all South Africans.
